

MALE CONTRACEPTIVE INITIATIVE

Internship & Fellowship Program Sponsorship

OUR MISSION

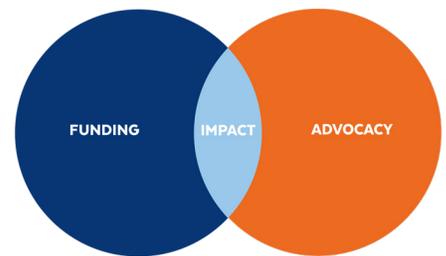

Nearly half of all pregnancies worldwide are unintended, and yet men's contraceptive options are limited to condoms, vasectomies, and the ineffective withdrawal method. **There is no long-acting reversible contraceptive for men on the market today.**

Male Contraceptive Initiative (MCI) is a 501(c)3 nonprofit working to advance research on new non-hormonal male contraceptive methods in order to have a significant, positive impact on unintended pregnancies worldwide.

OUR STRATEGY

With a two-pronged, interconnected approach, we help move the research and development of male contraceptives forward by **funding** promising leads while building awareness of and interest for these products through our **advocacy** efforts.

We believe that this will allow us to have considerable positive **impact** in the short-term *and* the long-term as demand for new male contraceptives grows and novel products become available.

YOUR SUPPORT

As a non-profit, we rely on private donations to support our work. **We view our donors as partners in our mission** and provide support opportunities that reflect this partnership. It is vitally important to us that our funders see the impact of their charitable gift, and are recognized for it.

Only together can we move towards a future where everyone has the means to control their reproductive health and participate fully in their family planning.

YOUR OPPORTUNITY

Internship & Fellowship Program Sponsorship

Providing young professionals the opportunity to develop real world skills through an Internship & Fellowship program greatly aids MCI's mission, but also assists the entire male contraception research community by helping to ensure a continued pipeline of talented researchers working in the field.

Your **\$15,000** donation provides a year-long educational experience for a student interested in a career in the male contraceptive field.
